

FinanceGenius

A Cloud-Based & Mobile-Ready Lending Solution. Competitive, Flexible & Scalable.

A MODERN LENDING SOLUTION

Streamline the loan origination process for today's consumer who demands simplicity and speed. FinanceGenius, a cloud-based loan origination solution (LOS), features Alogent's user-first and channel-agnostic approach so borrowers and lenders can engage whenever and wherever convenient – mobile, online, or in-branch. Deliver a significant impact on the speed of loan origination, as well as the application volume.

Be available for lending 24x7 and onboard new borrowers quickly. Make it convenient to apply, and simple for your lending and underwriting teams.

CLOUD-BASED AND TURNKEY

Cloud-based and scalable to fit your unique needs, FinanceGenius automates more of the lending process and can be available in a production environment quickly and without third-party IT support. Simple configurations enable internal team to make changes quickly and easily.

A SOLUTION BUILT FOR GROWTH

FinanceGenius naturally marries Alogent's digital banking and enterprise content and information management solutions (ECM/EIM). By addressing the full lifecycle of the loan, it expands a financial institution's control of the full digital ecosystem and strengthens customer and member relationships. Alogent's user-first approach focuses on the borrower's journey, delivering a mobile-friendly, simple-to-use system that takes advantage of the redundancy, security and the technology benefits of the Alogent Cloud.

BENEFITS OF AN AUTOMATED LOAN ORIGINATION SOLUTION (LOS)

- **User-First Approach: Flexibility to engage through the channel of choice: mobile, online, or in-person**
- **Streamlined Processing Workflows**
- **Better Compliance**
- **Increased Volume Efficiency**
- **Less Training Required**

END TO END AUTOMATION WITH A 360 DEGREE VIEW

Differentiate your financial institution with FinanceGenius. Automated decisioning and custom business rules speed processes specific to your organization. Increase productivity and predictability throughout the entire application workflow.

Gain a single view into the full lifecycle of the loan, from origination to decisioning, underwriting, and approval, through a centralized view of all channels and an easy-to-navigate dashboard and reporting console.
