

NXT

Flexible Mobile, Digital, and Voice Banking Platform That Puts User Experience First

SINGLE PLATFORM FOR YOUR ENTIRE DIGITAL ECOSYSTEM

Drive greater value with NXT by bringing mobile, online, and voice banking together in a single, flexible platform with flexible integration potential.

By empowering users through a unified approach, NXT sits at the heart of your digital ecosystem. Its deep integrations with Alogent's complete product suite enable the sharing of data cross-solution, turning information into business intelligence with reduced friction and a centralized hub that reduces fraud.

BLUR THE LINES BETWEEN DEVICES

It takes more than mobile and online offerings to compete for a customer's or member's loyalty, which is why Alogent's laser focused on the user's journey. NXT delivers simplicity with a single, fully integrated digital platform that futureproofs your digital banking platform.

Sitting at the heart of your user's experience, NXT is a centralized hub for all mobile, online, and voice banking – bringing simplicity to the user and a competitive advantage to your institution.

Designed with a unified approach from the ground up, NXT ensures consistency across all touch-points. Features on a desktop site are available on a mobile app or responsive browser – enabling flexibility, convenience, and uniformity regardless of how the user chooses to bank.

FLEXIBLE, OPEN AND API-BASED FOR LIMITLESS CUSTOMIZATION

A modern technology stack, open architecture, and deep core banking integrations lend endless integration potential for NXT. FIs gain even greater flexibility by pairing a multi-tiered permission-based framework with a centralized, highly configurable administrative portal for exceptional levels of insight and configuration.

NXT's API driven backend, open architecture and end-to-end SDK, afford customization and unprecedented third-party integration potential now, and well into the future – an essential component for any bank's or credit union's success.

SCALABLE AND FLEXIBLE TO DEPLOY YOUR WAY

Scalable to address financial institutions of all sizes – ranging from community banks and credit unions to international institutions – NXT allows you to seamlessly interact with customers and members when, where, and how they want to do business, with flexible deployment options.
